What Is The Purpose
Of Student Government?

NUMBER 19

Career Meet Talks Benefit Senior Women

The annual Career Conference and Vocational Guidance Week program was attended by a large number of women students, Mrs. Dorothy Evans said.

The conferences, which were held Monday through Wednesday, were sponsored by the House Presidents' Council. Although this was only the second year for a general vocational guidance week, a similar program had been held for senior women for several years, Mrs. Evans said.

Students heard talks on opportunities for women in such fields as aviation, medicine, psychiatry, and journalism.

The career conference, now in its third year, gives upperclass women an opportunity to secure positions before leaving school. Mrs. Evans expressed disappointment at the small number of representatives who came to interview job-seekers. Large postwar labor supplies account for this, she said.

Considering the few representatives of companies on the campus, Mortar Board's section of vocational week was a success," Union social director Mrs. John Evans said Thursday. Less recruiting is being done this year because job opportunities are fewer, according to Mrs. Evans. About 50 women students and a few men signed for interviews with the companies represented.

Women interested in summer camp jobs should see Mrs. Evans today in her office, room 121 of the Union. Representatives of Campfire Girls and Girl Scouts are interested in signing students as camp counselors, she said.

Language Tests

All freshmen and transfer students of the College of Arts and Sciences who entered the University at the beginning of the Fall quarter, 1945 have the opportunity to take the proficiency examination in a foreign language Tuesday afternoon, March 14 at 4 p.m., Room 112 Neville hall. The proficiency examination must be taken before the foreign languages group requirement for graduation is complete. Any student who wishes to take the examination at this time should notify his language instructor or Dr. M. M. White, Room 106, Neville hall by March 11.

By Lucy Thomas

QUESTION: WHAT SHOULD BE DONE TO OUR PRESENT KENTUCKY CONSTITUTION?

Nancy Taylor, A&S, senior: Junk it completely and start over.

Kyle Hunter, Agriculture, sophomore: Let it alone and give it a chance.

Bernice Herman, Education, senior: It should be changed to meet the present and future needs of the state. The way it is now, an unskilled street cleaner can make a better living than a skilled teacher. It encourages trained people to leave the state!

Allen Leedy, A&S, junior: Burn it! Edwin Abraham, Commerce, junior: It should be amended or else thrown away.

Jimmy Chestnut, A&S, sophomore: Let the Democrats revise it!

Nancy Lockery, Agriculture, senior: Should it be amended?—Of course. We want every educational advantage possible here at UK.

THE PROF: We should have a new constitution but it should not become the organic law of the state until it is approved by direct vote of the people.

A VET: Here and there around the campus, I have heard drifts of idle conversation from the students in regard to revision of the Kentucky constitution. Never has there been such hot discussion and deep expression as given forth by the teachers who rank the salary situation paramount, and blame it for Kentucky's rating 47th educationally. We all agree that teachers should be free from financial worry, but think of those the state wastes \$5,000 on. NO, it would cost the state approximately \$110,000 and why pay this when we can make up for the deficiencies by amendments to the present constitution.

Miss Margaret Storey, Patterson hall head resident, explains conference to near-graduates in the vocation week ending today. Left to right: Liz Carey, Betty Clardy, Sue Flynn, Eleanor Bennett and Virginia Babb.

Kyian Delayed By Shortages

Veterans Consider Housing, Subsidies, Wall's Resignation

All the copy for the Kentuckian has been set into type, and most of the engravings are finished, Tommy Gish, associate editor, announced today.

Although work on the Kentuckian has been progressing ahead of schedule all year, the yearbook may be delayed for several weeks because of the paper shortage, he said.

Printing of the annual was to begin this month, but the milling company making the paper has informed the Kentuckian that it is only now able to manufacture the paper because of supply shortages.

The annual this year with 268 pages, will almost equal pre-war books in size, and will have more snapshot pages, organization pages and other features than wartime annuals.

Division pages will be printed in dark blue, and will feature drawings by Joe Ward, senior art major and art director of the yearbook.

Mary Lillian Davis, journalism senior from Shelbyville, is editor of the book. Others on the staff are Mildred Sparks, education senior, Lexington, managing editor; Billy Baker, education senior from Lexington and Tommy Gish, journalism junior from Sevierville, associate editors.

Archeological Society To Hear Dr. Webb

Dr. William S. Webb, head of the University Department of Anthropology, will present "The Indian Knoll Shell Heap of Green River" at the March meeting of the Kentucky Archeological Society tonight at 7:30 p.m. in room 201 of the physics building.

Dr. Webb has recently completed a final report of the Green River shell heap.

According to Dr. Webb's estimate, these early Kentuckians lived in Ohio county about 2,000 to 3,000 years ago. The University has about 1,000 well-preserved skeletons from the characteristic round burial mounds, excavated in 1939 and 1940 by WPA workers under the direction of Mr. Marion Baugh. Baugh, a UK geologist, was trained in archaeological excavation by Dr. Webb.

"This is one of the best-preserved series of its kind," according to Dr. Charles E. Snow of the anthropology department. The main weapon of this primitive people was the spear thrower, man's first machine and the forerunner of the bow and arrow. With this spear thrower, the Indians outran deer, fish, and wild turkey. Their diet also included nuts, berries and shell-fish, according to Snow.

The Shell River group lived near the water, this particular group inhabiting Ohio county in the central portion of Kentucky.

Students and visitors are invited to attend the meeting after which refreshments will be served.

Vets May Apply For Homes Monday

All married veterans who are now enrolled in the University

may apply for prefabricated houses in the office of the dean of men at 1:30 p.m. Monday, according to Dean T. T. Jones.

Veterans are urged to apply at this time because the number of houses not yet assigned is limited.

SGA Election Shows Even Party Split

Constitutionalist representatives including one unopposed candidate, were victorious in five out of nine of the races for Student Government Association positions. The results of the election held Wednesday were announced yesterday by Gwen Pace, chairman of the election. Voting was heavy, Miss Pace said.

The new members will be installed by Wendell Demarcus, judiciary committee chairman, at the next regular meeting of the assembly, March 16. They will serve until March, 1947.

New members of the association include Helen Olmstead, constitutionalist, commerce lowerclasswoman, who was unopposed; Katherine Guion, independent, agriculture lowerclasswoman; James Trice, independent, graduate man-at-large; Arnett Mann, independent, law man-at-large; Bob Ingram, independent, engineering lowerclassman; Patsy Burnett, constitutionalist, arts and sciences lowerclasswoman; Betty Grote, constitutionalist, arts and sciences upperclasswoman; John Crockett, constitutionalist, arts and sciences lowerclassman; John

Young, constitutionalist, arts and sciences upperclassman.

Publicity chairmen for both parties said campaign expenses were higher than in any war-time SGA election. Thousands of sample ballots were distributed outside the Union building all day Wednesday. Biggest election of the year, however, is the balloting next quarter for a president and vice-president of the Student Government Association as well as for the usual representatives.

Elections, according to the SGA constitution, must be held within one week of the close of each quarter. The quarterly election system with one-third of the assembly retiring each quarter, was devised two years ago, Miss Pace said. Nominations from each party are made at party caucuses a week before election date. Official poll watchers are designated by each party president for every hour the polls are open. Party workers, in addition to poll watchers, are stationed outside the Union. A Union board ruling deems that no active campaigning may be carried on inside the building.

Board OK's Plans To Replace Building

New \$450,000 Unit To Be Constructed

Plans for a new \$450,000 fireproof building to replace that destroyed by fire February 15 were approved Tuesday by the executive committee of the University's board of trustees.

The plans call for fireproof vaults to hold valuable records and manuscripts.

The new service and maintenance building will occupy the same spot as the old one but will not cover as much ground. Work on the building will begin as soon as debris is cleared away from the site of the old one, and further specifications are approved, University comptroller Frank D. Peterson said Wednesday.

Receipt of a gift of \$2,000 from the General Education Board, New York city, for the conducting of summer-quarter workshops was announced at Tuesday's meeting. These workshops, which would be under the supervision of the University College of Education, are held each year primarily for the benefit of teachers all over the state. Nationally-recognized educators lead the instructional phase of the shops, explaining types of classroom procedures.

The committee also accepted a gift from the Algernon Sydney Sullivan Foundation, which annually awards medallions in June to a woman student, a male student and a citizen of the state adjudged outstanding in character and citizenship.

Ernest B. Johnson and William W. Brock, Lexington architects, were employed by the committee to draft plans for the new service building.

Tentative plans call for a four-story concrete and steel structure, including the basement. It will face south on the triangular plot of University grounds between South Lime and South Upper streets. State Attorney General Eiden S. Dummit

(Continued on Page Four)

UK Organist Will Present Next Program

Mrs. Peniston, Music Department, In Musicale Series

Mrs. Era Wilder Peniston, formerly professor of organ at Asbury college, and presently instructor in piano in the Music department of the University, will present an organ recital in Memorial hall Sunday afternoon at four o'clock.

Mrs. Peniston has an established reputation as a music educator and concert organist. She studied organ with Parvin Titus, at the Cincinnati Conservatory of Music, and with Marcel Dupre, professor of organ at the Paris Conservatoire. Mrs. Peniston studied piano with Mieczyslaw Munz, noted Polish pianist, and other outstanding teachers, including Roy Harris, American composer.

The program for Sunday's recital:

Fantasia and Fugue in G minor,

Bach; Gavotte, Martin; Andante

(Grande Piece Symphonique),

Franck; Sketch in D flat, Schumann.

Inspection Team To Visit UK ROTC

An Army inspection team composed of three officers will visit the University's military department June 3 and 4, Col. G. T. MacKenzie announced this week.

President Donovan has approved the inspection which will include

watching drill, recitations, and subject matter covered in military classes.

The University band as a part of the marching unit will also

stand inspection by the Army team.

Catching Up With The Campus

By Jim Wood

This is the seventh in a series of articles to acquaint ex-service men with the University of Kentucky campus during the war.

FEBRUARY 1944: Gov. Willis and the state legislature were guests at the Illinois-Kentucky basketball game . . . Phi Alpha Theta, honorary history fraternity, was discontinued for the duration . . . The

CATS beat Fort Knox . . . Bill Embry, Constitutionalist, was elected to succeed himself as a representative from the commerce college to the Assembly of the Student Government Association . . . Dr. Carl A. Lampert retired after being head of the music department for 25 years . . . An all-student convocation opened the campus war bond drive . . . The CATS defeated Illinois after having been defeated by them once during the season . . . The University bond drive quota was set at \$3,600 . . . Governor Willis and Maj. Gen. Charles Scott of Fort Knox spoke at a convocation in the Alumni

gym . . . Betty Tevis became the first woman sports editor of The Kernel . . . A Kernel editorial said that war conditions did not justify paying for a big name band to play at the University . . . Kentucky accepted an invitation to play in the National Invitational basketball tournament . . . University military enrollment was scheduled to drop to 223 on April 1.

MARCH, 1944: The CATS were favored to take the loop crown as Southeastern Conference games got underway . . . A student, in a letter to the editor, accused the Student Government Association of being a joke . . . The clique won the seats it sought in the SGA election . . . Norma Weatherspoon was named editor of The Kernel . . . The Tri Deltas were bowling league winners . . . Statistics showed that 2,000 used the University library . . . A letter to the editor accused SGA as being a faculty "puppet" and The Kernel editor said it wasn't . . . The CATS took the conference crown . . . Bob Brannum of the Wildcat squad

was selected as All-American by

Pie magazine . . . Psychologist Margaret Ratliff was described as a "vogue fashion plate" . . . Metropolitan star Florence Kirk was presented in a recital at Memorial hall . . . University enrollment showed that women outnumbered men five to one . . . The CATS bowed to St. Johns in the semi-finals in the National Invitational basketball tournament . . . Commenting on a Kernel editorial which said that SGA was not a "puppet," a letter to the editor accused the Kernel editor of being totally ignorant of the student government set-up . . . Betty Tevis went to New York to cover the National Invitational basketball tournament for The Kernel . . . A total of 576 ASTP members were transferred to the active Army.

Salary Controversy

APRIL, 1944: University trustees

announced that salary payments

would be withheld from Dean James H. Graham "until the salary con-

cerns are brought to a conclusion"

Members of The Kernel busi-

ness staff will hold an important

meeting at 4 p.m. Monday in the business office. Kernel business manager Peggy Watkins announced today.

All members of the staff and

students interested in joining

the staff must attend the meet-

ing. Miss Watkins said.

WSSF Drive Nets \$370.73 In First Week

Personal solicitation in the campus-wide World Student Service Fund drive totaled \$370.63. YWCA secretary Dorothy Collins said Wednesday.

Betty Ree Rhoads and Howard Clay Bowles, "colonels" in the drive said the student canvass would continue through next week in an attempt to reach the WSSF's \$5,000 goal.

The UK drive, sponsored by the YWCA and YMCA, donated proceeds of the men's intramural basketball finals to the drive, and the personal solicitation this week and next is the climax to the drive. The WSSF is an international, non-sectarian, non-profit organization which helps students in all countries to resume their work after war disruption and economic interruption.

Largest personal gift in the campaign was \$10, contributed by O. C. Seavers. Joan Scott and Frances Wilhoite, both of Shelby house, contributed \$3 and \$2, respectively.

Incomplete returns from units, with their contributions, are as follows: Zeta Tau Alpha, \$10; Delta Delta Delta, \$22; Kappa Kappa Gamma, \$4.25; Alpha Delta Pi, \$6.50; town women, \$3.50; Shelby House, \$13; women's dormitories, \$21.93; town men, \$10; Bradley hall, \$34.25; Elmside, \$3; Kinkead hall, \$12.75; and alumni, \$2.

New Directories May Be Obtained In Union Today

New student directories will be issued to students from 9 a.m. to 4 p.m. today in the Union building, according to Emily Jones, chairman of the directory committee.

A Student Government activity, the compilation of the new edition has been in progress since registration began for this quarter on January 4. Daily additions have been made on account of the influx of veterans entering all through the term.

Miss Jones estimated the new enrollment at approximately 3,600, or about 1,000 more students than were enrolled last quarter. "A very high percentage of these new enrollees are returning veterans and the proportion of men to women is now reaching a normal level," she said.

Entries are made from the information each student submits upon registration. There are some directories left from last quarter but they will be given to the new students only, according to Miss Jones.

Only 2,700 copies of the new edition have been printed and though this is not enough for the total enrollment, it is deemed sufficient for the number who will call for copies.

Kampus Kernels

Mortar Board . . . will meet at 5 p.m. Friday

What's The Purpose Of SGA?

What is the purpose of the Student Government Association? What has it accomplished in this school year, and what will be its goals in the future?

These questions are being asked by students who are once a quarter asked to vote for representatives to the assembly, then hear little more than routine business from the organization for the rest of the time.

Even the preamble to the constitution is indefinite about the purpose, "wishing to provide an organization through which our energies may most effectively be directed." Now just what energies does that mean? The assemblymen, the student body which makes up the membership, and the faculty are just as vague on the point.

Many worthwhile things have been accomplished in the past through SGA backing, such as the war bond drives, the convocations, and other expressions of the will of the students. Other duties of the organization such as writing letters, putting out the Student Directory, and allotting money for publications could have been done just as or more effectively by the administration. But that is not what the students want. They are willing to sacrifice a little efficiency to take actual part themselves in the running of the campus.

It was unfortunate that SGA, which is a comparatively recent organization, was not instituted until a large part of the business of the campus was split between other boards and clubs. That can only be remedied through SGA's having a more definite part in planning activities—and putting them through without months of committee meetings, dwindling interest, and delay.

Through SGA the students are represented on the University Faculty, and on the Athletic Planning Board. The individual members of the assembly are very willing to do their part, and Charlie Gardner, as president, is taking his work seriously. The poor attendance of the past few months is being corrected, and added interest seems to have stimulated a few out of the sink-in-one's-own-affairs lethargy into a more active participation. But this is not enough.

SGA must have a definite project for the year—something worth while, something that the students want and need. They are asking the students what that project shall be. If the government association is to be a vital, representative body, busy in making its influence felt in campus affairs, instead of the dragging, ineffective institution it can be, it must be the focal point of progressive action. SGA is the body to seek a cure for campus ills. It is the student's representative government.

What steps should be taken—what shall the projects be?

To Wed Or Not To Wed?

The old argument about waiting or not waiting until one graduates from college to marry is a prominent conversation topic once more. This time, however, there is a new twist. The question has become, "How will marriage affect college grades?"

Many of the married discharges of the war are coming back to school on the GI Bill and are bringing their wives along. About 1/3 of the veterans at UK are enjoying married blessedness. The government and schools are assisting in this, for they're working cooperatively to provide special housing units for the couples.

Parents are going to find out that Junior makes better grades in college, now that he's married, than he did in pre-war college days, when he was single.

On the serious side:

(1) The couple has a common purpose—to get through school quickly and settle down to the business of raising a family. Their time is too valuable for not making the most of their months in college.

(2) They want to make better grades, because they know that the better the grades—the better the future job.

(3) They are paying for their education now with money that, in a sense, they earned for themselves—and they want to get the most for their money.

On the lighter side:

(4) They are together, nor wondering where and with whom the other one is.

(5) Now they can wholly concentrate when they are together at study time instead of the half-hearted efforts they made in dating days.

They're older; they've grown up and settled down—anyway two heads are better than one, even when it comes to making college standings.—J.P.

—And Now

• if the anonymous one who answered The Kernel's requests for suggestions as to how to run the paper by noting "Do you want to send a truck for the suggestions or should I mail them in bundles?" will send his name, we will know what kind of a truck to send. The garbage truck, the patrol wagon, or the University mail truck.

Cooperstown Committee Answers Letter; Student Criticises Editor's Statement

Editor, Kentucky Kernel:

In The Kernel of March 1, "Two Students" condemned Mr. Kenneth F. Broome for telling them the facts instead of letting their hopes be raised needlessly. We are anxious to see that all of Cooperstown is occupied as soon as possible. The council is working for all future citizens of Cooperstown as well as the present citizens. We have obtained the facts causing the slow-down of the work and have tried to do our share in helping the future citizens to move in sooner. We realize exactly the conditions that various people are living under while waiting to move to Cooperstown. We want the future citizens to realize that Mr. Broome's letter had nothing whatsoever to do with determining the moving date. He was telling you the facts and we don't believe this warranted the unwise attack on him in the letter.

A very little investigation would have brought to light the true case of the blasting. Near the rock in the ditch there is a one story frame dwelling which some thought might be damaged by the blasting. The bonding company for the Shely Construction Company withdrew its insurance when the blasting was suggested. Can anyone blame the construction company for not blasting to prevent being sued for more than their profits on the whole project? The University would not assume the responsibility because we, the citizens, would pay for the damage to the house. On the day that the letter from "two students" was published, there were some test blasts made to observe the damage to the house. Blasting was carried on throughout Friday so maybe the job can go ahead.

More investigation would have shown that the State Health laws require that there be two ditches for the sewer and water pipes. These pipes are in the streets; therefore, to their participation in the council. What possible foundation do you have for stating: "These veterans

not live in Cooperstown without streets. WE KNOW."

LIBERTY:

The Grill
Duncan Hines ain't been there
I really just don't care
Still it is open for business
It is the place where—

People go there to be happy,
People go there to be gay,
They talk so much, they do
Never know what they say.

You may go there so glibly,

ter published, but if the facts demand action, we will be glad to do all that we can to help remedy any faults.

COOPERSTOWN COUNCIL
E. E. WILLIAMS, Chairman

The sooner you recognize: (1)

for a clear, straightforward expression of the principles of honest editing of a campus newspaper.

For your editor's note at the bottom of a student letter concerning the Cooperstown Project, I denounce the flagrant violation of the code set forth in your editorial, which incidentally, appeared exactly two columns to the left.

By no means do I heartily endorse the sentiments stated in the letter signed, "two students"; indeed, my viewpoints are perhaps better expressed by the letter written by Mr. Combs, which followed your editor's note. Nor have I reached that advanced stage of inflated egotism which prompts one to brand as absurd, ridiculous, or foolish any arguments presented which do not coincide with his.

He attempts to explain the reasoning of the two students; they are impatient of slow moving action and grew directly from a conversation with the two students. He said the men used to arm, was not adjusted to civilian methods of getting things done. Isn't that a justifiable statement? It certainly is in accord with The Kernel code. It did not approve or disapprove of that attitude—did not brand any personal opinion of the editor was incidental.

Born in Meridian, Miss., Mr. Briggs attended Western Reserve and the University where he received a degree in English in 1937. He taught at University high school for two years, and received a master's degree in English in June, 1945. Mr. Briggs, who traveled through

nothing less than the overnight construction jobs of the army—which are impossible in civilian life? Did their letter either state or intimate that thought? If it did, I failed to recognize such an implication.

Mr. Briggs, who took the play of Frank Fowler, now studying for a master's degree in New York, has produced and directed six plays including "Junior Miss," "Angel Street," "Kiss and Tell," "Out of the Blue," "Blithe Spirit," and "Double Door."

Recognized champion of student actors, Wally has given US students 28 speaking parts during his two seasons at the theater.

Mr. Briggs, a veteran of the war,

has appeared in a number of former

Guignol productions under the direction of Frank Fowler including:

"March Hares," Under the Gas Light," "Personal Appearance," "Ah! Wilderness," "Accent on Youth," and "Dark Eyes."

He also played the adult male lead in "Kiss and Tell,"

a production he directed. Mr. Briggs believes this production to be the biggest box office hit he has produced.

Born in Meridian, Miss., Mr.

Briggs attended Western Reserve

and the University where he re-

ceived a degree in English in 1937.

He taught at University high school

for two years, and received a mas-

ter's degree in English in June, 1945.

Mr. Briggs, who traveled through

Europe in 1939, returned to the

United States on the Normandie,

under black-out orders all the way

across the Atlantic. This trans-

Atlantic trip was the last for the

Normandie, before she was scrap-

ped.

* * *

ORCHIDS to Rupp and the Wild-

cats. It's needless to state why.

NOW THAT THE GRASS is

rising green and the thermometer is

rising, the campus is cluttered with

students lying on the grass, taking

in the sunshine and the words of

their companions—trying to "get

away from it all."

Profs are running

into the annual problem of keeping

their students interested in the per-

suit of knowledge. In fact, darned

few students show up for their

classes. Profs and students, alike,

have come to the conclusion that

"spring is here."

* * *

QUOTE OF THE WEEK: "I'm

going to try something new in

radio—a broadcast from the McWay

hall elevator. . . . A WBKY staff

member."

* * *

LAST WEEK-END presented a

difficult problem for one of our in-

genious students. He had made

arrangements to usher at the Rom-

berg concert, forgetting that the

SGC finals took place on the same

day at the same time. Never to be

outdone, the student went to the

concert, ushered, and then, at eight-

thirty, he walked to the projecting

booth located in the very back of

the Henry Clay auditorium, turned

on the radio, which he brought from

his home, and enjoyed hearing the

Wildcats tramp over LSU. We would

like to dedicate this to thoughtful

student, what we consider as the

SONG OF THE WEEK: Patience

and Fortitude."

Fielding Afield

By Julia Maier

Although his hearing was im-

paired in youth by a severe case of

whooping cough, Fielding Rogers,

journalism major from Paris, Ky., did his part in active service during

the war, too.

He enlisted in the American Field

Service in April, 1945. He traveled

to Secunderabad, India, where he

trained with the British 14th Army,

finally seeing action in the India-

Burma theater of war. He drove an

ambulance for wounded servicemen

from the fighting front to the base

hospital, acted as stretcher bearer,

and repaired disabled vehicles.

Soon after his illness, Mr. Rogers

learned to read lips, sharpening that

for his deficiency in hearing ability.

Mr. Rogers, son of Mr. and Mrs.

Fielding G. Rogers of Paris, is now

back on the campus majoring in

journalism in preparation for enter-

ing the foreign service when he is

**FROM THE GREEKS**

By Janet Sulzer
N E O P R S T T F X Y O

Friday night, the night before the Louisville-wide celebrating, the AGRs entertained their dates with a dinner at the Club Madrid in Louisville. Spider Webb made the arrangements.

Since Friday night in Lexington probably would have been very dull, the Tau Alpha Pis were guests at a slumber party that night at Dorothy Levy's home on East Maxwell. Both actives and pledges were present.

Mrs. R. L. Stiff, province director of Delta Zeta, arrived last Wednesday to be a guest of the local DZ group. The active members of Delta Zeta will entertain Mrs. Stiff with a dinner tonight at the Canary Cottage.

From 4:30-5:30 tomorrow afternoon, the Thetais will give a party for the Delta Tau Deltas. The Theta Mothers' club is in charge of arrangements.

Tonight, beginning at 8 p.m., the Kappa Sigma pledges will be honored with a party given by the actives. Guests will include the boys' dates. Mac Pewitt is in charge.

Tri-Dels going to Louisville for the game tomorrow night are: Frances Wickliffe, Betty Yeager, Beth Shipman; Virginia Minter, Beckley, W. Va., assistant rush chairman; Jean Coleman, Lexington; summer rush chairman, and Carolyn Meyer, Henderson, editor.

Phi Sigs Fete Lowry

Actives and pledges of Phi Sigma Kappa, newly reactivated social fraternity, will hold a stag dinner Thursday evening at the Little Inn, in honor of Douglas Lowry, whose marriage to Mary Jane Miller will take place March 20.

Officers recently elected for the pledge class of Phi Deuteron chapter of Phi Sigma Kappa are as follows: Paul Grumbles, president; Charles K. Sexton, vice-president; William H. Bixler, secretary and treasurer. Pledges pictured here, back row, left to right: Brownie B. Bolton, and Michael E. Whitfield, Leitchfield; William A. Senning, Shelbyville; Lee Booth, Lexington; middle row, left to right: William H. Bixler, Frankfort; James M. Rice, Ashland; Dewesee Y. Campbell, Olympia; Charles K. Sexton, Carlisle; front row: George G. Judge, Carlisle; William H. Miranda, Ashland; Paul G. Grumbles, Ashland; Thomas E. Huzzey, Ashland. Harry Booz, Mayfield, was not present when picture was taken.

Women's League Submits Application To State Committee

The officers of the Campus League of Women Voters held their fifth board meeting Monday in the Union building. Mrs. Amy Vandenberg, adviser to the group, was present, and Mary Keith Dosker, chairman, presided. It was announced that the league has submitted an application for "associate membership" to the Committee for Kentuckiana.

The next general meeting will be held Monday at 4 p.m., in room 204, of the Union building, with Mrs. G. Moss Patterson of the Bureau of School Service as speaker. The program will be based on the education report published by the Committee for Kentuckiana.

Future plans for the league include election of officers, application to the faculty for recognition as a University organization, and a campus poll on "Have You Caught Up With the Atom?"

Actives and pledges of Sigma Phi Epsilon fraternity serenaded the women's dorms and sorority houses Wednesday night.

Pledges of Sigma Phi Epsilon fraternity will entertain actives of the chapter with a stag party tonight.

Dr. Hall Will Speak On 'Family'

By Martha Yates

Dr. W. Scott Hall, of Transylvania college, will speak Sunday on the family in the University for life series, sponsored for student members of Central Christian church.

Dr. William Clayton Bower, professor emeritus at the University of Chicago and professor of religion and sociology at the University of Kentucky, last week completed a series on the "Living Bible." His title was chosen from his book which was released recently, and was reviewed by the Lexington Herald-Leader.

The series, according to director Stephenson, was organized with the purpose of balancing the educational life of the Christian student. While every student in college is broadening his viewpoints in physics, literature, chemistry, and the like, he may let his religious viewpoints either stagnate or be outgrown. To defeat this unbalance is the purpose of the program, Mr. Stephenson asserted.

The varied courses have been given and will continue to be given by Lexington ministers and professors on the campuses of Lexington. They include Revs. Leslie R. Smith, John McCaw, A. W. Fortune, Robert W. Miles, Gentry Sheller, and Rabbi Albert Lewis; professor John Kuiper, H. H. Downing, William Clayton Bower, Myron T. Hopper, W. Scott Hall, and Dr. Henry Noble Sherwood.

Professor Kulp, head of the University philosophy department, headed a series of five talks on the religions of the world during the latter part of last quarter, Mr. Stephenson stated.

Dr. H. H. Downing, professor of mathematics and astronomy at the University, will present a series of talks on science and religion during March.

Members of the panel will be Jean Ritchie, Ann Garrison, and Joe Covington. Ruth Anthony will introduce the speaker.

This program will continue a series begun at the last meeting by Representative Charles Anderson, Louisville, who spoke also on race relations.

Other University student officers participating are president Ellen O'Bannon, Jeannie Bureau, Frances Wilhoite, Jean Eubank, Margaret

Tinder, and Lenora Henry.

The education department is headed by Gentry A. Shelton, under whose direction Mr. Stephenson executes the program.

Weddings and Engagements**FENIMORE-WHITLEY**

Mr. and Mrs. William Roe Fenimore of Lexington, announce the engagement of their daughter, Agnes Louise, to James Robert Whitley Jr., son of Mr. and Mrs. James Robert Whitley of Majestic, Ky.

Both the bride-elect and the bridegroom-elect attend the University, where she is a member of Chi Omega sorority and he is president of Lambda Lambda chapter of Sigma Chi fraternity.

HAGAN-HEATON

The engagement of Martha Danna Hagan to James N. Heaton, son of Mr. and Mrs. James A. Heaton of Lexington, is announced by her parents, Mr. and Mrs. Sherman Dean of Nicholasville.

The bride-elect attended the University.

KNIGHT-PHILLIPS

Mr. and Mrs. Joseph Lee Knight of Nicholasville, announce the wedding, March 3, of their daughter, Josephine, to Harold Dudley Phillips, son of Mr. and Mrs. Otis Phillips of Nicholasville.

The bride attended the University.

O'CONNELL-CAIN

The marriage of Margaret O'Connell to James Paul Cain, son of Mrs. Mary F. Cain of Middletown, Ohio, is announced by her mother, Mrs. Michael O'Connell of Lexington.

Both the bride and the bridegroom are graduates of the University.

LAND-BLOSS

The marriage of Mary Louise Land and Fred Donald Bloss, son of Mr. and Mrs. Fred M. Bloss of Chicago, is announced by her parents, Mr. and Mrs. Paul W. Land of Richmond.

The bride-elect attended the University where she is a member of Kappa Gamma social sorority. The bridegroom-elect attended the University.

OLDHAM-ORTTENBURGER

The engagement of Margaret Arnold Oldham to Clark Kellogg Ortenburger, son of Mr. and Mrs. Charles William Ortenburger of Richmond, is announced by her parents, Mr. and Mrs. Harold Oldham of Richmond.

The bride-elect attended the University where she is a member of Kappa Alpha Theta social sorority.

WYLIE-FOY

The wedding, Saturday, Feb. 24, of Jean Wood Wylie to Wallace E. Foy, son of Mr. and Mrs. Oscar Foy of Nashville, Tenn., is announced by her parents, Dr. and Mrs. Birch

Wylie of Nicholasville.

The bride attended the University where she was a member of Kappa Delta sorority.

HOLMES-DOYLE

Mr. and Mrs. Ben Holmes of Vaden, Miss., announce the marriage of their daughter, Marguerite, to George Forrest Doyle, son of Mrs. Olive Doyle of Nicholasville. The wedding took place February 24.

Mr. Doyle was graduated from the University.

TAYLOR-WRIGHT

The engagement of Elizabeth Venable Taylor to Albert E. Wright Jr., son of Mr. and Mrs. A. E. Wright of Mt. Sterling, is announced by her parents, Mr. and Mrs. Edmund Taylor of Greenville, Miss.

The bride-elect attends the University where she is a member of Kappa Kappa Gamma sorority. Mr. Wright attended the University.

DEAN-HAGER

The engagement of Dorothy Pemberton Dean to Lyman Hager, son of Mr. and Mrs. Arch Hager of Nicholasville, is announced by her parents, Mr. and Mrs. Sherman Dean of Nicholasville.

The bride-elect attended the University where she is a member of Kappa Sigma fraternit

ty. Other officers include Bill Goodloe, Somerset, vice president; Lewis Sawin, Lexington, master of ceremonies; Bill Franks, Silver Grove, secretary; Bill Hubbard, treasurer, and Bob Adams and Dwaine Gullett, both of Lexington, guards.

Thetas Elect Louise Jewett

Louise Jewett, Cynthia, is the newly-elected president of Gamma Iota chapter of Kappa Alpha Theta. Jean Newman, Portsmith, Ohio, was chosen vice-president. Other major officers include: recording secretary, Margaret McDowell, Lexington; corresponding secretary, Sarah Legan, Bowling Green; treasurer, Louise Wilson, Lexington; and rush committee, Marjorie Mattmiller, Lexington; Jean Spicer, Lexington, and Ann Chandler, Johnson City, Tenn.

Painting Continues Despite Tool Loss

Though handicapped by loss of tools and equipment in the service building fire the Maintenance and Operations department is carrying on spring repairs and painting. Mr. E. B. Farris, head of the department,

has set up a temporary office on the second floor of the Administration building.

In a letter to members of the department President Donovan promised that a new and better building will be built and encouraged members of the department to carry on until then.

Painting in McVey hall and the Union building is going on without interruption. "Most of the painter's tools and equipment was on the job and not destroyed in the fire," said Clyde Lilly, chief clerk of the department.

Workers are busy now finishing the painting of the great hall of the Union. The music room, card room, corridor, and the upstairs halls of the SUB will also be finished in the next week or so. In McVey hall the offices of The Kernel news staff and the editor have been finished.

Dr. William S. Webb, head of the University physics department, ponders—but not excitedly—the prospect of man's travel to the moon, adding, "I don't see why anyone wants to go there."

No Moon Trip For Webb

**Prefers Teaching
To Space Jaunts**

By Myrtle Weathers

"I'm not at all excited about going to the moon," said Dr. William S. Webb, head of the University physics department, to The Kernel Tuesday.

Lack of excitement, in fact was the keynote of all Dr. Webb's comment on the possibility of jaunts to the moon predicated upon recent successful radar contact with that body.

"Imagination is quite alright," Dr. Webb commented, but added that uncontrolled imagination has no place in science. Real voyagers to the moon are more in the realm of Buck Rogers and Jules Verne.

The moon has no atmosphere, Dr. Webb pointed out, adding that man would have "considerable difficulty" in taking an atmosphere with him and making it stick where gravity's pull is far less than on the earth.

"Of course we could have wonderful track meets on the moon," he added, with the comment that, all other things being equal, a man who could jump 10 feet on Earth could whip off a 160-foot span on the moon. Otherwise, Dr. Webb sees no object in man traveling to this celestial body. "It would be like climbing on a rock in the middle of one of the Great Lakes and then climbing off and going home."

Why Go?
"I don't see why anyone wants

to go to the moon," Dr. Webb continued, pointing out that "there's nothing there to see, and if there were it would be pretty difficult bringing it home." Webb suggests that any information of any value about the moon could be obtained by sending rocket or jet-propelled ships to the moon with sensitive recording instruments in them—in stead of men.

If a rocket ship can travel 1,000 mph, and the fastest one yet tested makes only 600 mph, the round-trip would take roughly 19 days. The moon is 240,000 miles from earth, and other near planets are millions of miles away.

Contact by radar with the moon could have been made successfully six or seven years ago, according to Webb. Excellent techniques were required, however, to make the returning radar wave detectable after its 480,000-mile trip to the moon.

The wave traveled at the speed of light, 186,000 miles per second, to the moon and returned to the earth in about two and one-third seconds.

Webb Won't Try It

Asked if he would board a rocket ship tomorrow and travel to the moon, Webb laughed, "No, I'll be in class tomorrow and the department of physics will go right on."

Admitting the possibility of man traveling to that body, he added that the trips would not be made in his lifetime and he would be quite content to continue teaching, because "I've never wanted to do anything else."

Children's Dislikes Prove Puzzling To Experimenters

By Margaret Dickey

One particularly stubborn child entered the room scowling and suspicious. He looked at the examiner and the conversation which followed went something like this.

"Did my mother send you here to test me?"

"This isn't a test, sonny, and I don't believe I'm even acquainted with your mother."

"That's all right then. Let's get this thing over with."

And all because the Experimental Child Study class at the University of Kentucky is studying the likes and dislikes of children from grades one to six. The purpose is to determine whether or not there is an age or environmental difference in the like habits of children.

The study consists of twelve pictures of men and twelve pictures of women selected at random. The pictures are all the same size and are posted on the same kind of card. The child puts in one stack the pictures he likes and in another stack the pictures he doesn't like. From these he chooses the

three he likes best and the three he doesn't like at all.

One of the pictures, a beautiful blonde model, brought forth a number of varied comments. One little girl liked her because her hair was long and she looked like she could dance. Another child didn't like her at all because she resembled the Wolf Girl in L'il Abner. (He immediately launched a conversation about the latest installment.) A 10-year-old boy said nothing—he whistled.

During the test, the same boy just didn't like the way one man looked. He seemed to have no reason for his dislike when asked, but added as an afterthought, "He kinda looks like the principal."

Opinions were based on various things. One little girl chose her favorites on the beauty of the hair. After fifteen minutes of this, the examiner began to feel a little uncomfortable. How did her hair look?

One child looked up at the examiner and very thoughtfully said, "I'd probably like your mother and daddy, but I don't think I'm going to like you like."

**Arthur Black Reigns As 'Lord 'n Master' Of Memorial Hall**

By Roger Hicks

Arthur Black, the colored fellow in the white coat who is well-known to Memorial hall audiences as the man "who lifts the piano lid," has been lord and master of the auditorium for seven years.

Joked With Governors

During his many years' service at Memorial hall, he has come to know many important people: He has cracked jokes with Governor Willis and former Governor Johnson; he has presented flowers to Metropolitan sopranos; he has brushed the coats of forum speakers before they made their entrances; he has set the stage for the Christmas and Easter Chorister program; for that matter, he has done a little bit of everything to make convocations and musicales more polished and interesting.

Arthur, who is married and has two sons, is a veteran of the first World War, and he says that he is most interested in a number of forums held in Memorial hall concerning the war, since he saw service in England and France and is familiar with a number of the pieces and conditions mentioned in the discussions.

The colored janitor-overseer takes great pride in his building and ever strives to see that it is presentable for the various occasions and affairs which attract people to the hall.

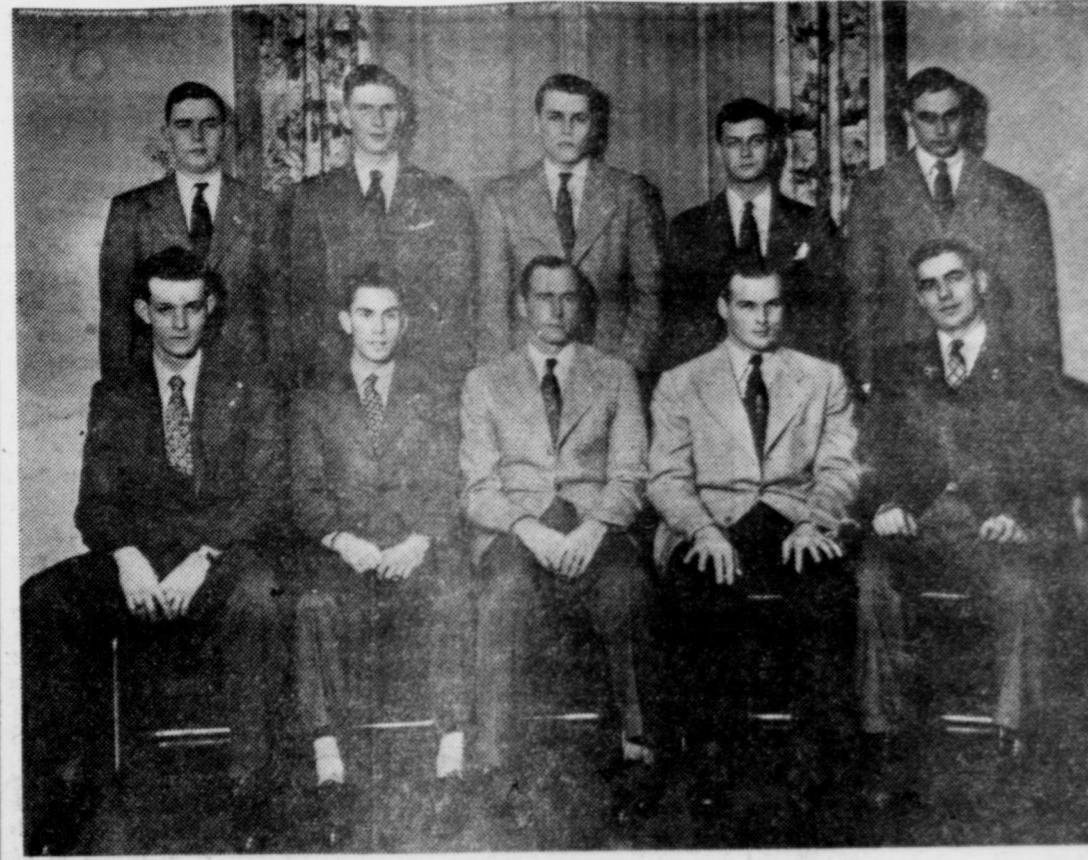

Show Goes On

Programs ranging from Boy Scout conventions to Metropolitan musicales have come and gone during Arthur's stay, and, according to Arthur, anything can happen, although to this date every program has gone off smoothly: nobody has slipped on his newly waxed floors; no one has fallen down the steps and as far as he knows, no one has passed out either on stage or back stage.

Board Okays Plans

(Continued from Page One) announced Wednesday in Frankfort that the state fire and insurance fund is liable for \$202,475 in damages of the \$450,000 total loss of the old building.

Dr. H. L. Donovan reported that the executive committee discussed student and housing problems at length with Jack Bryan, local emergency housing official of the Fed-

Du Pont Digest

Items of Interest in the Fields of Chemistry, Engineering, Physics, and Biology

CHLOROPRENE RUBBER DEVELOPED BY DU PONT**Chemists and Engineers Unite to Produce "Neoprene," Prove Value of Group Research**

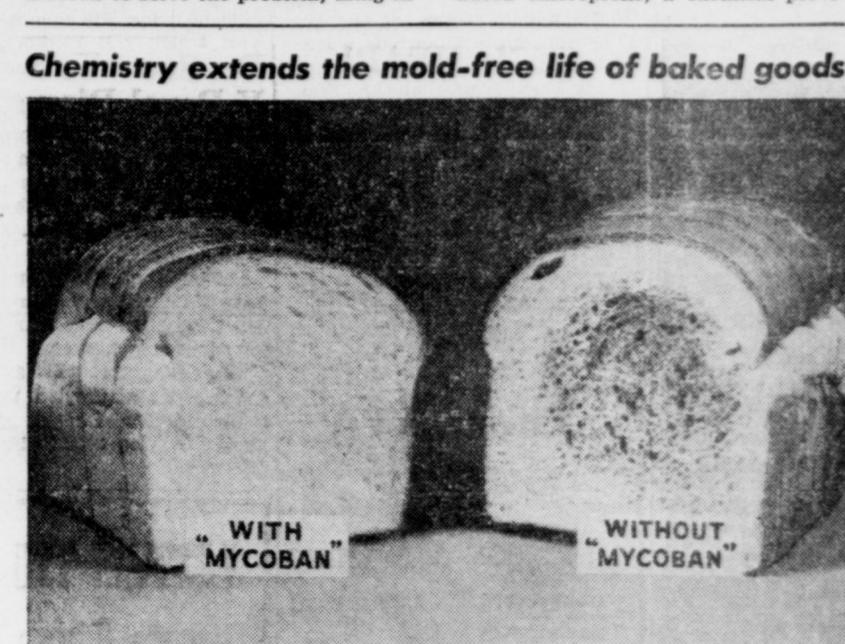

THE synthesis of rubber was for many years a challenge to the chemists of the world. In 1925 Du Pont chemists undertook to solve the problem, using as

their starting point a discovery announced by Dr. J. A. Nieuwland at Notre Dame University in connection with the polymerization of acetylene. The Du Pont research staff modified his process to form a material known as monovinyl-acetylene and discovered that this, treated with hydrogen chloride gas, produced chloroprene, a chemical previ-

ously unknown. Their next discovery was that the polymerization of chloroprene resulted in a rubber-like solid, superior in many respects to natural rubber itself.

Neoprene, as this synthetic rubber is now called, was first placed on the market in 1931. Although more costly than natural rubber, the demand for it grew rapidly. Du Pont engineers were called upon to design and build manufacturing units embodying improved equipment and better production techniques. The result is that today neoprene production is measured in millions of pounds a year, and the price is only slightly higher than that of natural rubber.

The development, the improvement and the large-scale production of neoprene are another tribute to the value of modern, coordinated research. Neoprene is the result of the cooperative efforts of many Du Pont research chemists, engineers and other technical men.

A hungry world cannot afford to waste bread. Yet until recently millions of pounds of bread were being wasted annually in the United States because of mold. There was a real commercial need for a material that would delay the growth of this food enemy, if only for a day or two. But to meet requirements, this material had to be edible, wholesome, and completely beyond any suspicion of being toxic.

Combined chemical and bacteriological research resulted in the discovery that 0.3% of calcium propionate or sodium propionate in bread would delay the growth of mold for as long as two weeks. In commercial practice, a concentration between 0.1% and 0.2%

was found to be sufficient for average conditions.

Calcium and sodium propionates are made from propionic acid, the synthesis of which (from carbon monoxide and ethyl alcohol) is another chapter in the achievements of Du Pont research—and an interesting one. The propionates occur in low concentration in Swiss cheese and other dairy products, as well as in the human body. Hence their consumption in foodstuffs is both natural and safe.

"Mycoban"—as the Du Pont propionates are called—is a shining example of how intensive research solved a problem which long perplexed baking technologists.

Questions College Men ask about working with Du Pont

"WILL I CONTINUE TO LEARN AT DU PONT?"

On-the-job training of new chemists and engineers is supplemented at many DuPont plants and laboratories by training courses, lectures, and conferences. In 37 laboratory centers—chemical, biological, medical, engineering, physical—new men are continually exposed to the thinking and direction of men who have given cellophane, nylon, polythene, and many other products to America.

SPELBOUND

Scribe Roland Explains Vets And Organization

By R. Clayton Roland

OUR REPS ARE RARIN'

Some worried souls around the campus have wondered just why the Veterans' club threw the original constitution out the window not long ago and adopted a new one. The best reason we have been able to find was it corresponded very closely to the Kentucky constitution—it was antiquated. We had a concrete example of this last week when representatives of the local club and eleven other Kentucky colleges met in Louisville with the idea in mind of organizing an "Association of Kentucky College Veterans' Clubs." Some of the clubs' constitutions expressly forbade any such "entangling alliance"—but not so the UK club. That section of the old constitution was not incorporated in the new one, so our reps are rarin' to go while other schools must take care of their charter troubles before such an organization becomes reality.

TTEMPORARILY

Even though the association could not be formed at the recent meeting, a temporary organization was established in which some members of the University club hold conspicuous places. Ed Gabbard, Harrodsburg, was elected temporary chairman, while Vance Johns, Louisville, and George W. Stephenson, Williamstown, hold down the secretarial positions. The new association is expected to take permanent form at a meeting soon in Bowling Green.

TENSHUN
Feminine vets on the campus: President Howard C. Bowles has connections with the nylon industry! You don't believe it? Then check with members of the club who attended the meeting two weeks ago. His Honor presented a pair of those rare items to a vet's wife at that meeting. His source of supply is "Top secret—equal British confidential."

TATTLE-TELLING

Anything can happen at a meeting of the Veterans' club and it usually does. Some vets on the campus who are unfamiliar with the "color and clang" that goes on at these Monday night discussions (?) in the Union building could profit by attending if for no other

Poetess Eunice Adams Is Student Ruth Settle

By Martha Yates

Ever hear of Ruth Settle? Probably a lot of students on the campus know her. What they do not know, however, is that a nom de plume is hiding her from the public eye.

Under the name Eunice Adams, Ruth is recognized by critics all over the south as a promising poet of our time.

Ruth came back to the University this year after an absence of several years spent working in a war plant, in an Army camp, and traveling around with her husband.

On the campus in 1940, Ruth was active in several organizations, among them Chi Delta Phi, women's honorary. Since she has

returned her advice and efforts have been turned to helping produce the new campus magazine, "Vague."

She, naturally, works with the poetry committee.

She has "jotted ideas down" ever since she discovered that she liked to write. Whenever an idea or impression comes, Ruth is ready with her notebook packed with bits of philosophy, description, characters, traits, phrases and words that are vivid. They are very useful, Ruth asserts.

She has had two books of poetry published thus far. One is "Souvenir," a collection of some of her better ones, she thinks. Her other

book is an anthology in which her poetry appears, "52 Best Poems," published and selected by the staff of the Lexington Herald-Leader.

Eunice has received favorable comment from papers all over the country, some of them being in the North, but the majority in the South.

They agree that the impressive characteristics about her poetry are its vivid, sensory impressions, picture-creating ability, sensitivity and quaintness. Her poetry is essentially

lyric, in an occasional tone. Every day subjects are set apart by Ruth, making them seem natural and yet important and distinctive again.

Although Ruth married in 1943, she plans to continue her writing and not discontinue it for a domestic career.

Reviews of "Souvenir" are now in the campus bookstore, and her book is available by order.

Four Named All-SEC; Wildcats Take 9th Crown

UK Breaks Precedent; Places 4 On All-SEC For First Time

Parkinson, Jones, Tingle and Beard Selected By AP
By "Scoop"

Four members of the Kentucky Wildcats' starting five were selected on the Associated Press all-Southeastern conference team, and the remaining player won a berth on the second team. This was the first time that any team has placed four men on the first team.

Captain Jack Parkinson was the only unanimous choice by all the sports writers and radio men voting. Wallace (Wah Wah) Jones got 37 out of a possible 40 votes for the center spot. Jack Tingle drew in 36 for a forward position, while Ralph Beard collected 30 tallies to become the other guard.

It is the third time that Parkinson and Tingle have made the first team in their three years at UK. Both boys made the team in their freshman and sophomore year. Now, Jones and Beard having made the team in their freshman year have an opportunity to continue and equal this record. Wilbur Schu, the remaining Kentucky starter, was selected as one of the forwards on the second team.

Bobby Lowther of L.S.U. turned in some fine conference play to beat Schu out and take the final position on the first team.

In addition to Schu the second team was composed of Carl Shaeffer

Coach Bryant Disappointed Over Tryouts

By Don B. Towles

Coach "Bear" Bryant announced that football practice will be discontinued after tomorrow. The team has been practicing for the past few weeks and Coach Bryant feels that the coaching staff has had ample time to "lock 'em over."

About 60 players started practicing but the number has now been cut to about 50. Coach Bryant said that the team looked good physically but that the spirit of the Kentucky team was bad. He also said that the team did not have competitive spirit and that only a few of the players had any spirit at all. He further stated that the Kentucky team had less spirit than my group of boys that he has ever coached.

Already agreements have been reached to pit the Wildcats against all other conference teams except Florida and Auburn. The Gators and the Plainsmen refused games with the Wildcats because they didn't think their teams were strong enough yet to warrant Kentucky's coming that far south.

Having just returned from the recent Southeastern Conference Tournament in Louisville, along with many spectators and sports scribes, were a little disappointed in the brand of basketball that some of the teams played. Louisville has been the only place that has been able to make the tournament pay.

However, it has been a mystery to us, along with many others, how Louisville has made a paying proposition out of it with the type of basketball contributed by some of the contestants. If it weren't for the great Kentucky, following throughout this section, and the desire by enthusiasts around here and in southern Indiana to see basketball, we don't believe the tournament committee would have to meet and decide what to do with the profits. At last, maybe, the other teams have realized that unless the competition becomes more keen the crowds will begin to get smaller even in this basketball section.

To quote Shakespeare, "The die is cast." The other teams in the conference have shown a desire to improve their basketball and Coach Rupp has shown a willingness to help them. By scheduling games with Kentucky they hope to promote interest in basketball in the south. And when fans get interested, they will demand better teams. And when the schools develop better teams, competition in the Southeastern Conference tournament will

become keener. And when competition becomes keener, the greater the demand for tickets to all games.

In three years, about the time required to improve basketball play in the conference, Kentucky will have her new field house with a large seating capacity. Yes,

$2+2=4$. That's just good arithmetic.

practices during the week. He said that the Kentucky men were ready to meet the Temple team but he did not comment on the outcome of the game. However, if the Ruppers can continue to play ball as they played in the past week, the Temple team will have a tough time of it.

Before the Temple clash in January, Assistant Coach "Baldy" Gilb said that the Temple game would be "tough" and there is no reason to believe that it will not be "tough" this time. However, the Wildcats are in better shape for this meeting with the opponents than they were in January and they will be all out to avenge the defeat earlier in the season.

Four Named All-SEC; Wildcats Take 9th Crown

Cats Defeat Auburn, Florida, 'Bama, LSU In Tournament

'Cats Score 256 Points; Foes 122

By "Hal" Yard

Turning in their best brand of play thus far this season, the Kentucky Wildcats operated smoothly in all four games to walk off with their third successive Southeastern Conference crown. The Cats clicked together as a team, and turned in almost flawless play throughout to win with little trouble, their eighth tournament and ninth conference championship. In 1935, no tournament was played, but Kentucky was conceded the championship on a percentage basis.

Kentucky scored 69 points each in the first two contests, and 59 each in the last two games to overcome their opponents by 45, 37, 29, and 23 points in that order as they advance to the championship. They defeated Auburn by the score of 69-24; Florida, 69-32; Alabama, 59-30; L.S.U., 59-36; to give themselves a tourney average of 64 points per game, while holding their opponents to 30% point average.

It was Kentucky all the way with

Parkinson Leads Scoring

Captain Parkinson leading the scoring for the Wildcats in each game. However, all five men on the first team turned in top performances, and the second team was not to be overlooked. Although they failed to mark up a point in the last four minutes of play in the championship game, they had already earned their keep earlier in the tourney by turning in excellent play.

The Cats had little trouble overcoming Auburn in their opening debut Thursday night. The Plainsmen scored first on a field goal by Quentin Burgess, but Tingle came right back for Kentucky, and the Kentuckians were never behind again. They held a 29-14 count at

enter on last year's team, but is developed into a back for the coming team. Two other backs, who could develop by next season are lightning "Dopey" Phelps and "Doe" Morris. Both these men have showed up "pretty well" in practice and might be able to help the team by next year.

Gene Hass and Bobby Green have shown up well in the position of guard while Wash Serini is the only tackle who has made any showing on the Wildcat squad. Jay Rodenmeyer is a likely possibility for the position of center.

Coach Bryant said that he hoped he would be "pleasantly surprised" by the team but that much more spirit must be had by the entire group if a winning football team was to be had by Kentucky.

the half.

Against the Florida Gators in the quarter finals, Jones started the scoring with a free throw, and after Bob Ryan had tied it up, Beard put the 'Cats back ahead with a field goal. After that it was all Kentucky with the half time score standing at 35-17. The Wildcats' second team who had finished the first half started the second half and despite their stubborn fighting spirit were unable to do much and the Wildcats led 59-31 at the automatic time out. At this point the entire second squad came into the game and although they were unable to hit the basket in the many attempts they made, they held L.S.U.'s first team to five points. The last minute and one-half of the game was scoreless.

Individual scoring for the tournament:
